The "House" System

The House system is a new initiative at St. Stanislaus, begun in the 2008-2009 school year, to inspire positive interaction and friendly and spirited competition among all in the "Band of Brothers" at SSC.

The house system is a long-rooted tradition in the English and European school systems, and our model is taken from our fellow Brothers of the Sacred Heart school, St. Columba's College, in England. The house system vertically integrates students across all years – 7th-12th grades – into four groupings. This vertical grouping is designed to facilitate cross-year bonding – part of what the houses seek to inspire – so that older and more experienced students can guide, teach, and motivate the younger students in their houses, having a long-term vested interest in and connection with the younger guys.

The four houses at St. Stanislaus are named after four Brothers of the Sacred Heart schools around the globe: St. Columba's in the United Kingdom, Cristo Rei in Brazil, St. Michel in Cameroon, and Cor Jesu in the Phillipines. Each house has its own insignia (worn as a patch on the pullover uniform shirts and on the house tie, worn as part of the dress uniform on special occasions such as school-wide liturgies).

The houses are each governed by a house council, with representatives to the council from each grade level, and a house captain (a senior) and lieutenant, who are the leaders of each house. The houses also each have faculty assigned to them, who facilitate and moderate house meetings and activities. The houses meet periodically to discuss issues and to plan events for the school year.

From a fervor-filled dodge ball tournament to trivia contests, can drives, penny wars fundraisers, overall GPA's, cooperation in school (lowest disciplinary incidents), overall attendance and punctuality, participation in extracurricular organizations and events, and the like, the houses compete in a variety of arenas across student life to foster intellectual, spiritual, and athletic development. These competitions build house spirit and unity and foster positive and productive peer support to achieve greater student involvement and investment in the life of the school.

The various competitions produce points for the house, which are tallied over the course of the year. House winners are declared periodically in the various competitions; and, at the final school assembly of the school year, the House Champion is announced. The House Cup is awarded to the overall champion, with a plaque added to the permanent trophy, designating the winner for that year. The winner for 2008-09, for the inaugural year of the house system, was St. Michel, with House Captain Mario Martinez and House Lieutenant, Johnny Zuppardo.

Cristo Rei

Colegio Cristo Rei is a Portuguese-speaking school from pre-kindergarten to twelfth grade, in the Brazilia town of Maranila. Four Canadian Brothers of the Sacred Heart arrived there in 1959, and began the school with just 45 students. Now the co-ed school has grown to 1,500 students following a complete curriculm modeled to the English system of education, a state of the art media and technology facilities. Cristo Rei has a sports program that resemble those in the United States, with competitive teams in girls and boys' basketball, volleyball, and soccer.

St. Columba

The address of St. Columba is 8 King Harry Lane, St. Albans, Hertfordshire, United Kingdom, just a short train ride from London. Brothers from the United States took charge of it in 1955 and chartered it in the British school system as an independent Catholic school, which sets it apart from most English secondary schools. The school roll comprises 850 boys. At the end of the secondary school cycle, students can continue a prestigious final year called "A level," which prepares them for entry into university. It has close ties with other Brothers' schools using the British system in Zambia, Southern Africa.

St. Michel

St-Michel, an urban secondary school in the heart of Douala, the capital city of Cameroun in West Africa, is structured like the French system of education. It has a "college" level, which corresponds to grades 8 to 11, and a "lycee," which covers the senior year and a year of university level courses. Lycee students must pass an international examination to earn a post in the national university. St-Michel has more than 2,000 students. In Francophone Africa, where "foot" is a national pastime, its front yard is a regulation soccer field used by students of the school and by semi-pro leagues.

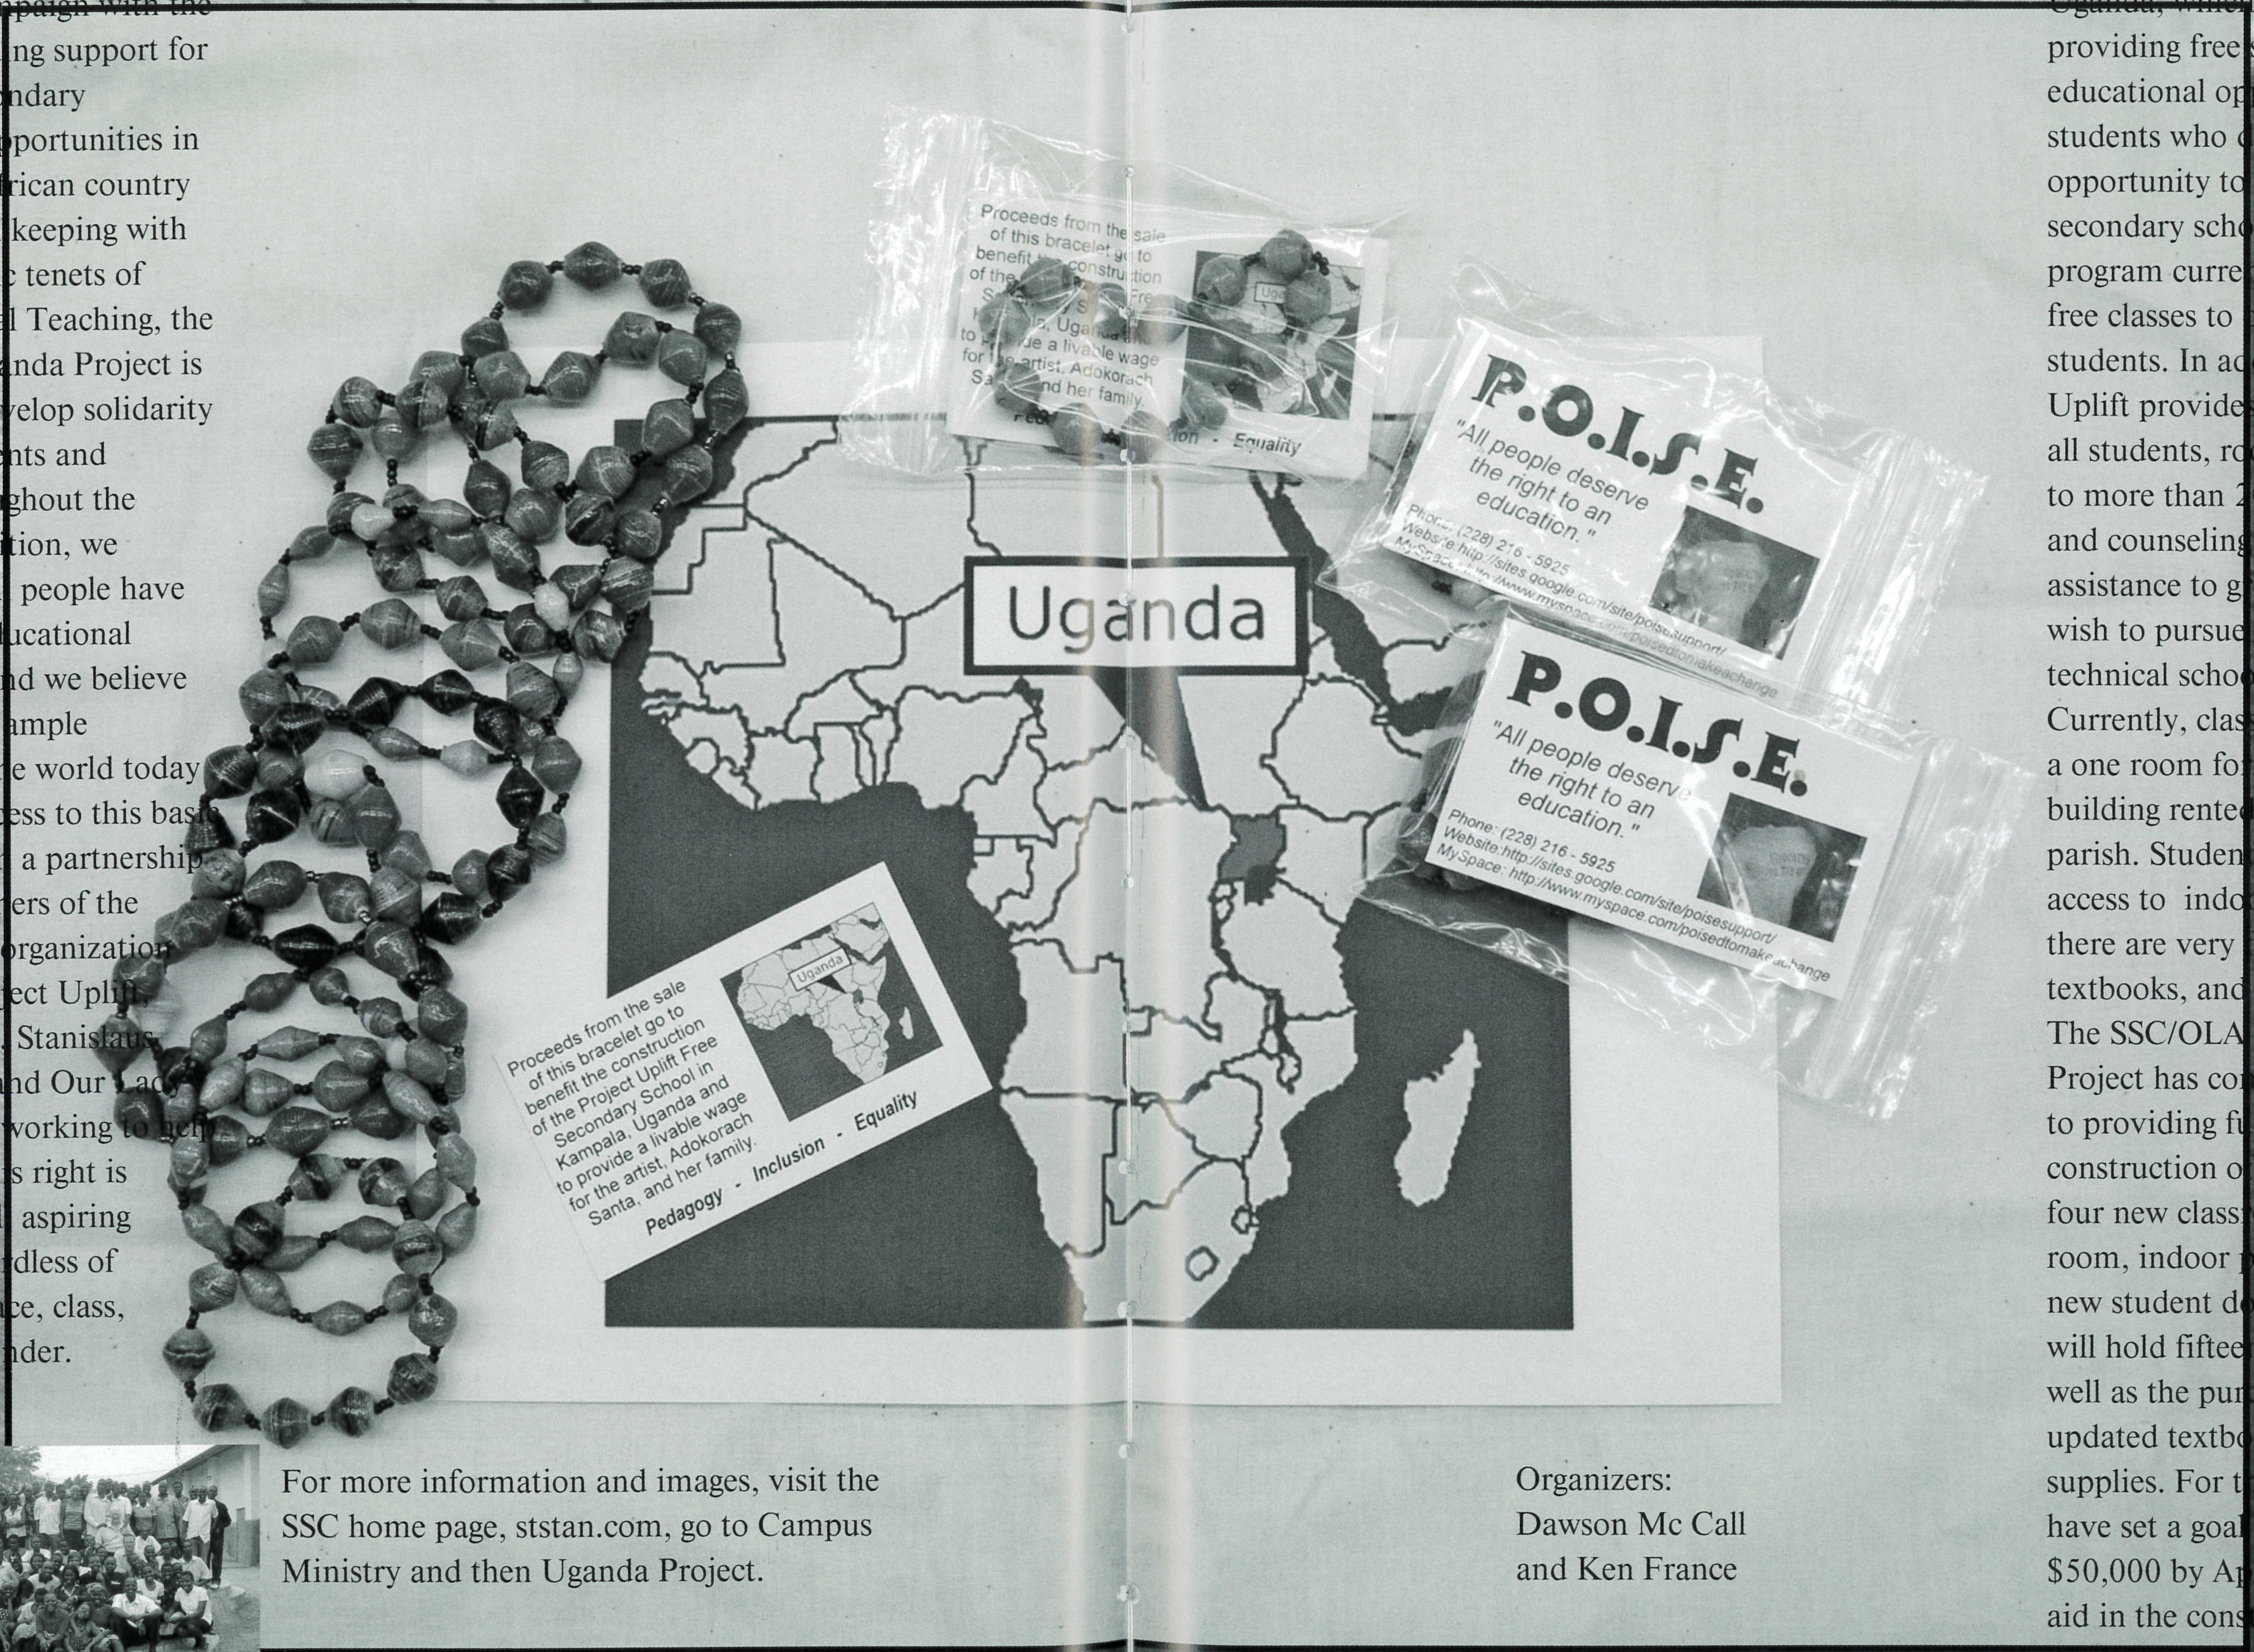
Cor Jesu

Located in Digos on the southern Philippine island of Mindanao, Cor Jesu College was founded by Canadian brothers in 1959. Because of the number of its programs, it spreads out over two separate campuses which house a kindergarten, an elementary school, a four-year high school and a College department. Because it is the only institution of higher learning in Mindanao, the college division offers bachelors degrees in Education, engineering, business, and other majors, as well as graduate degrees in Law, Business, and Library Science. Cor Jesu College boasts of alumni all over the world.

UGANDA PROJECT

What is the Uganda Project? The SSC/OLA Uganda Project is a fund-raising and awareness campaign with the goal of providing support for increased secondary educational opportunities in the Central African country of Uganda. In keeping with the seven basic tenets of Catholic Social Teaching, the SSC/OLA Uganda Project is working to develop solidarity between students and teachers throughout the world. In addition, we believe that all people have the right to educational opportunity and we believe that there are ample resources in the world today to provide access to this basic right. Through a partnership with the Brothers of the Sacred Heart organization known as Project Uplift, students of St. Stanislaus High School and Our Lady Academy are working to help ensure that this right is available to all aspiring students, regardless of nationality, race, class, religion, or gender.



Proceeds from the sale of this bracelet go to benefit the construction of the Project Uplift Free Secondary School in Kampala, Uganda and to provide a livable wage for the artist, Adokorach Santa, and her family.

Project Uplift is a non-profit organization located in Kampala, the capital city of Uganda, which focuses on providing free secondary educational opportunities for students who do not have the opportunity to attend secondary school. The program currently provides free classes to over 50 students. In addition, Project Uplift provides daily meals to all students, room and board to more than 20 students, and counseling and tuition assistance to graduates who wish to pursue university or technical school training. Currently, classes are held in a one room former chapel building rented from the local parish. Students do not have access to indoor plumbing, there are very few updated textbooks, and no medicines. The SSC/OLA Uganda Project has committed itself to providing funding for the construction of a block of four new classrooms, a dining room, indoor plumbing, a new student dormitory that will hold fifteen students, as well as the purchase of updated textbooks and school supplies. For this purpose, we have set a goal of raising $50,000 by April, 2010, to aid in the construction and development of the school and its infrastructure.

If you get a chance, take it. If it changes your life, let it. Nobody said that it'd be easy, they just promised it would be worth it." -Bob Marley

"What work I have done, I have done because it is play. If it had been work i shouldn't have done it. who was it said 'blessed is the man who has found his work?' whoever it was, he had the right idea in his mind. Mark you, he says his work-not somebody else's work. The work that is really a man's own work is play and not work at all. Cursed is the man who has found some other man's work and connot lose it. When we talk about the great walkers of this world, we really mean the great players of this world. LETTER FROM THE EDITOR

I know it has been a while since our last yearbook, but here we are. It has taken a lot of time and effort to make this yearbook, and being my first yearbook, I think that Ashton Aime and I did a great job. We learn as time goes on and I think that the next yearbook will be even better then this. Hopefully we will even have it out before school is over! The 2008-09 school year was great and I am sure everyone is looking forward to the future. I would like to apologize to Thomas Allard for your missing photo. I have had a great time making this yearbook and will be honnored to be editor of the next three yearbooks after this.

sincerely,

A very special thanks to Mr. Richard Gleber for taking the majority of these photos. Without him, none of this would have been possible. Thank you so much for everything that you do and everything you have done.

Special thanks to Mrs. Abrams Walker for always helping whenever we needed it and for always being there. She really pushed us to get this done and without her, none of this would have ever happened.
